

Advances in Functional Nanomaterials 2008

JUDGING CRITERIA

Student oral and poster presentations will be judged by the following criteria -

ORAL PRESENTATIONS

Slides - 10%

Layout
Use of figures and tables
Quality of slides

Presentation - 20%

Structured presentation with good flow
Clear speech
Good eye contact
Good engagement with the audience
Concise with no repetition

Research - 30%

Addresses important issues in the field of research
Able to clearly explain nanotechnology principals and approaches taken in research

Question time - 30%

Ability to perform during question time
Ability to provide appropriate answers

Novelty - 10%

How novel is the project?

POSTER PRESENTATIONS

Poster - 30%

Layout and appearance
Use of figures and tables
Structured presentation and flow

Research - 30%

Addresses important issues in the field of research
Able to clearly explain nanotechnology principals and approaches taken in research

Question time - 30%

Ability to perform during question time
Ability to provide appropriate answers
Clear speech
Good eye contact
Good communication
Concise with no repetition

Novelty - 10%

How novel is the project
